WEBSITE PROPOSAL

DIGITAL PLATFORM OVERVIEW

Project Purpose

We are building a **central digital platform** for the foundation — a place where everything comes together:

- Our story
- Our members
- Our activities
- Our impact

This will serve as the ***official online home*** of the foundation.

What the Platform Will Do

The platform will help us:

- Clearly present who we are and what we do
- Organize and manage our members
- Run and coordinate events smoothly
- Share updates, stories, and impact
- Attract supporters, partners, and donors

Key Features

1. Public Website

Accessible to everyone, it will include:

- Home page with our mission and highlights
- About section (mission, vision, leadership)
- Programs (our activities and initiatives)
- Events (upcoming and past)
- Stories and updates
- Contact information

2. Membership System

This is where our website becomes powerful.

Instead of managing members manually, everything becomes organized

- People can apply to join the foundation
- Membership categories:
 - Classic
 - Premium
 - Gold
- Applications reviewed and approved by leadership

3. Member Experience

Once approved, members can:

- Have their own profile
- View events and updates
- Participate in activities
- Stay connected with the foundation

4. Event Management

- Leaders can create and post events
- Members can easily sign up
- Track participation
- Share photos and highlights after events

5. Leadership Dashboard/Admin Control

For the team managing the foundation:

- Approve members
- Post updates and announcements
- Manage events
- Upload content and media

6. Donations & Support

The platform will also allow:

- Allow supporters to contribute
- Promote fundraising initiatives

7. Impact Visibility

We will showcase:

- Lives impacted

- Events completed
- Growth of the foundation

This builds trust and credibility.

Why This Matters

This platform will:

- Bring structure and organization
- Reduce manual work and confusion
- Improve communication
- Support growth and scalability

Conclusion

The system will be more than a website — it will be a **complete system that connects people, activities, and impact**, helping the foundation operate better and grow stronger.
